- Excel

ABOUT ME

Final-year Computer Science student with an interest in Full-Stack web development, software programming, and digital design. Proactive and committed to continuous learning, with experience in collaborative academic projects and skills in both frontend and backend development. Seeking my first professional experience to apply and expand my knowledge.

FEATURED PROJECTS

NEXTREAD (AUGUST 2025 - NOVEMBER 2025)

A full-stack web application was developed that allows users to register, search for books, post reviews, and save them to lists implemented on the site or customized by the user. The technologies used were **React**, **JavaScript (Node.js, Express.js)**, **MySQL**, **HTML**, and **CSS**.

NETVIEW (AUGUST 2025 - SEPTEMBER 2025)

Network monitoring application capable of scanning IP ranges, and displaying statistics of active connections and protocols through a graphical interface developed in **Java**.

FITPOCKET (MARCH 2026 - PRESENT)

A full-stack application that generates training plans and diets based on user preferences and in real time. It includes a daily tracking system with check-ins to monitor progress toward goals and scheduled activities. It utilizes **React**, **JavaScript (Node.js, Express.js)**, **HTML**, **CSS**, **MongoDB**, **N8N**, and **AI APIs (Claude)**.
